Repeaters and Ports

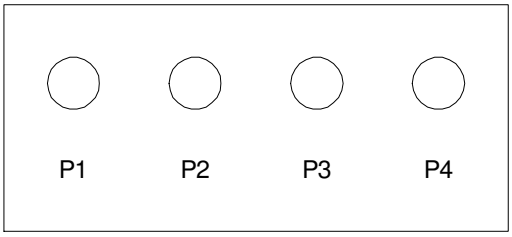
David T. Perkins

HUB MIB Working Group

July 19, 1995

A System

Consisting of a Single Unit, with no Plug-in Modules



Ports:

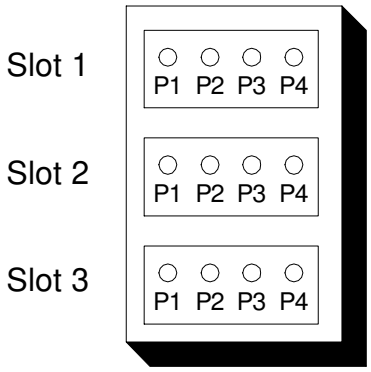
Identified by port number

Possible Repeaters:

I system interconnect segments and
P issolated ports

A System

Consisting of a Single Unit,
with Multiple Plug-in Modules



Ports Identified by:

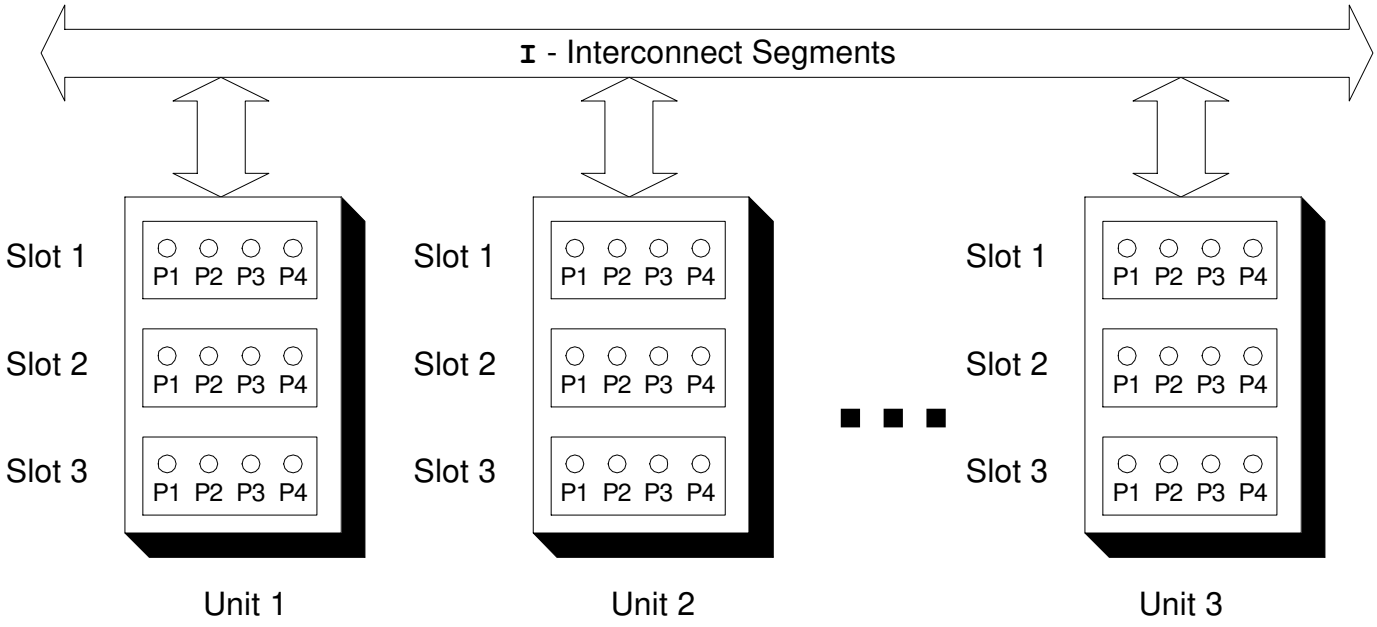
slot number
port number

Possible Repeaters:

I system interconnect segments,
S module interconnect segments, and
P issolated ports

A System

Consisting of Multiple Units,
with Multiple Interconnect Segments,
with Multiple Plug-in Modules per Unit



Ports Identified by:

unit number
slot number
port number

Possible Repeaters:

I system interconnect segments,
U unit interconnect segments
S module interconnect segments, and
P issolated ports

In the Future

A System

Consisting of something even more complex!
